

MVlink WiFi Experience

MVlink offers a whole home (or small business) WiFi for an additional \$4.95 per month.

Setting up your WiFi and App

Getting started with the app

The app allows you to manage your home or small business WiFi network. You can self-install and be managing your home or business within a few minutes. Download the app and start managing your home network today!

Search for MVlink Managed WiFi app in either the Apple App or Google Play store.

Coogle play

Download and install then select

"Let's Get Started"

First-time users will be asked to name your network and create a password.

IMPORTANT: We recommend no spaces in either the SSID (Network) name or the password as some connected devices will not recognize the space(s).

• Your network name will be used throughout the app and will be your wireless connection name.

Note: If you are replacing a router, we suggest using the same network name to ensure all devices effectively connect.

Congratulations!

Setup Wi-Fi
